St-Guillaume cheese, as *fresh* as it gets!

From an 80-year-old tradition, Fromagerie St-Guillaume's experienced cheese experts now process more than 40 million liters of Canadian milk per year in the form of fresh cheddar cheese curds (Le P'tit Frais), mild, medium (6 months), strong (1 year) and extra-strong (2 years) Cheddar, Baya Halloumi (grilling cheese), Parmesan, Brick, Monterey Jack, Swiss, Emmental, Pizza Mozzarella and Tortillon. Located in Saint-Guillaume, near Drummondville city in the province of Quebec, Canada, Fromagerie St-Guillaume is also a proud manufacturer of a wide variety of **lactose-free** cheeses.

Outstanding distribution

In Quebec, the unbeatable freshness of our cheese curds and daily fresh cheddar has been building the reputation of our cheese factory since 1940. This is made possible in particular thanks to our exceptional exclusive network of 35 distributors who crisscross our roads every early morning hours to deliver cheeses made overnight, freshly taken out of the basin.

Partner in your efficiency

Particularly in this time of labor shortage where all your efforts and costs are numbered, don't you have anything better to do than cut cheeses? Recognized for our great adaptability to the needs of hotels, restaurants and institutions (HRI) and the retail food services, our cheeses are offered under private or St-Guillaume brands, in blocks, wheels, wedges, cubes, slices or grated and in formats varying from 75 g to 18 kg. In addition, our restaurant poutine cheese curds are offered in different curd sizes (small, medium and regular) as well as in portion pouches varying from 40g to 120g for optimal efficiency.

In addition to meeting the Canadian Food Inspection Agency federal requirements, we comply with standards recognized by the GFSI (Global Food Safety Initiative) with our Level 2 SQF certification. We are also Kosher certified for some of our cheeses.

LE P'TIT FRAIS

DAILY FRESH CHEDDAR CURDS

INTENSITY: MILD

AROMA: FRESH MILK, BUTTER, HAZELNUT

This firm **daily fresh** cheese is made with pasteurized milk. The cheese curds have a moist, supple and elastic texture. This cheddar fresh out of the basin reveals a mild fresh milk scent. In the mouth, we also find this lactic freshness, slightly salty, where a mild acidity and slight notes of butter and hazelnut are also perceptible.

The skouik skouik you love!

Less acidic and less salty than the other fresh cheeses found on the market, Le P'tit Frais Cheddar curds has built St-Guillaume's reputation since 1940. The difference resides in the fact that it is a real Cheddar. Cheddarization brings an incomparable balance to its taste and elasticity. It also helps to maintain its whiteness longer and its precious texture that sings *skouik skouik* on your teeth. Even when topped with a hot poutine sauce, Le P'tit Frais Cheddar curds keep their shape for our greatest pleasure!

Classique or BBQ?

Created with yellow cheddar curds and seasoned with our unique spice blend with a slightly spicy smoky flavor, Le P'tit Frais BBQ amazes at every bite!

POUTINE SAUCE

OTHER PRODUCTS

INTENSITY: MEDIUM

St-Guillaume's poutine sauce was developed to perfectly accompany our Le P'tit Frais Cheddar curds. Ready to heat, it comes in a resealable plastic container. Just remove the film, heat in the microwave for 2 minutes and serve. In-store, poutine sauces are displayed with daily fresh Le P'tit Frais Cheddar curds tables and near cash registers.

Reduced sodium content

During a bench test conducted in October 2018 by nutritionist Isabelle Huot, our poutine sauce ranked among the top three best choices: « [...] it ranks among the least salty options. Its ingredients list is among the shortest and the absence of gum and artificial coloring gives it more points. »¹

All the more reason to choose it!

BAYA HALLOUMI

GRILLING CHEESE

INTENSITY: MILD

AROMA: COCONUT, ANISE

This firm, unripened cheese is made from pasteurized milk. It is a Halloumi-type cheese that truly stands out from other similar cheeses for its distinctive slightly salty and spicy taste which comes from Middle East spices. They give it subtle aromas of star anise, cumin and coconut.

Light up the BBQ!

As it maintains its shape when heated, this cheese is perfect when grilled in the pan or in raclette, or skewered on the BBQ. Once grilled, it can be enjoyed as is, served with an auberine dip or your other favorite vegetables, or served as a salad garnish. Also try it on a refreshing aperitif skewer by combining it with watermelon and zaatar.

A must!

LA BRIQUE

PIZZA MOZZARELLA

INTENSITY: MILD

AROMA: MILK, BUTTER

This semi-soft **lactose-free** cheese is made from pasteurized milk. Beneath the smooth and rindless surface is an elastic paste with a few small irregular holes. In the mouth, its creamy texture offers a mild milk and butter flavor, tastier than regular mozzarella.

Great stretching in gratin and won't burn!

This pizza mozzarella also resembles brick-type cheeses. It stretches wonderfully in gratin and won't burn when heated. It can be used many different ways as this cheese is optimal when cooked.

La Brique can be savored in many ways: on a platter presented in cubes or wedges, sliced in a sandwich or in a burger. Try it on a pizza or raclette, your taste buds will make you ask for more!

EMMENTAL

GRUYERE-TYPE CHEESES

INTENSITY: MEDIUM **AROMA:** COOKED MILK, ROOT VEGETABLES (RUTABAGA)

This firm, pressed and cooked **lactose-free** cheese is made from pasteurized milk. Its smooth and supple rindless surface presents round holes (eyes) spread throughout the paste. In the mouth, this same lactic taste is however enhanced by subtle root vegetables (rutabaga) aromas and very light roasting (heated milk, grilled almond) pleasant notes.

Add personality to your dishes!

Just like St-Guillaume Swiss, the Emmental has remarkable melting properties. It dissolves easily in sauces and fondues. Its slightly sharper taste makes it an excellent recipe enhancer. It adds a lot of personality to a mac 'n' cheese, grilled paninis and burgers, just to name a few!
